

ASR

The New Era of Redefining Security

ASR STORY

A Fearless Machine

The world needs someone who safeguards without complaint. With unwavering determination and a mix of instinct and technology, it anticipate problems, defuse threats, and become a helping hand for safety.

*Meet OTSAW's ASR – **Where Security Meets Simplicity***

ASR USE CASES

Urban Surveillance and Safety:

Deploying ASR in urban environments to monitor streets, alleys, and public spaces, ensuring safety by detecting and preventing potential threats or criminal activities.

Public Event Management:

Utilizing ASR to manage security can assist in crowd control, identify suspicious behavior, and enhance overall event safety at public events, concerts, and gatherings.

Indoor Corporate and Residential Security:

Implementing ASR to enhance security in corporate campuses and residential areas, patrolling outdoor and indoor premises, monitoring access points, and providing real-time alerts for any unauthorized or unusual activities.

ASR FEATURES & BENEFITS

	Autonomous Navigation System		360-degree Video Streaming
	Battery Life (≤ 6 hours)		Emergency Stop Button
	Ultrasonic Sensors		Live Audio and Two-way Intercom
	Obstacle Avoidance (Static and Dynamic)		Broadcast Messages
	LED Digital Screen Display		FMCS (Fleet Management Control System)
	Self-Recharging Capabilities		3D Lidar
	Differential Steering		Multi Terrain Traverse
	Multi-Storey Capabilities		Enhanced Safety Functionality

ASR FEATURES & BENEFITS

FMCS (Fleet Management Control System)

Enhance security operations with our patrol scheduling system, ensuring efficient coverage to boost reactive capacity.

360° Video Streaming

Elevate your security with 24/7 live streaming and live video recording for a comprehensive monitoring.

Ultrasonic Sensors

Enable obstacle detection and intelligent path planning, ensuring safe and efficient navigation through constant scanning.

Obstacle Avoidance

The integration of real-time obstacle detection and ultrasonic sensors enables it to detect and react to obstacles.

Live Audio & 2-Way Intercom

Bolster communication through message broadcasts and two-way interaction, enhancing response capabilities.

LED Digital Screen Display

Utilize advanced high-density LED arrays, enhancing branding visibility and evoking a modern, high-tech vibe.

Differential Steering

Provides better energy efficiency and agile maneuvers, including the ability to rotate on the spot and make tight turns.

Self-Charging Intelligence

Automatically return to a designated charging station when battery runs low. Wireless charging is available as an option.

ASR REASONS TO BUY

ASR Made Smart, Simple, Secure

Each ASR offers these solutions, allowing our clients to seamlessly integrate them into their security operations without any concerns.

“RaaS” Robot as a Service

Customers can simply deploy our robots and pay a subscription price with minimal upfront capital costs. OTSAW continually maintains, enhances, and upgrades the robots, ensuring the product's integrity.

RaaS is an all-inclusive,
monthly subscription service

Covers everything from
machinery, setup, maintenance and support

No hefty upfront costs
for the end-user

Value and price is consistent,
without variable pricing or costs
